The South Australian Rally Panel welcomes you to the [insert name of series sponsor] South Australian Clubman Rally Series (SACS).

First run in 1998, the SACS historically played an important role as a secondary championship to the SARC providing less experienced competitors an outlet to hone their skills competing in stand-alone closed road non-pacenoted rallies.

With the SARC incorporating two blind rallies in the 2017 Championship for the first time in many years, the Panel has decided that these events afford an opportunity that has not been available before now to re-introduce the SACS and thereby give novice competitors a clear pathway to step up to the SARC and at the same time give competitors who have had time away from the sport or who are time poor and cannot set aside time for reconnaissance an outlet to participate.

Comprising a combination of ralliesprints and blind rallies, the SACS is designed to be affordable and serve two functions, first, by the use of blind rallies, giving competitors the means to develop the important skill of “reading the road” and, by the incorporation of ralliesprints, giving competitors the means to develop pacenoting skills in a low speed environment.

Rallies forming part of the SACS are strictly non-pacenoted. Competitors found using notes will be liable to a penalty of exclusion. Initially at least, the rallies forming part of the SACS will be “piggybacked” onto the SARC blind rallies. SACS entrants will compete on a subset of the SARC stages selected for their lower speeds. The apparel requirements for SACS will be those for multi-club rallies although the use of frontal head restraints is strongly recommended albeit not mandatory. SARC and SACS competitors may NOT cross-enter in the combined events.

The Panel is excited to welcome as their naming rights sponsor of the 2017 South Australian Clubman Rally Series.

The SACS calendared events for 2017 are:

Rd 1	7 th May	RAA Southern Rally
Rd 2	2 nd - 4 th June	Lightforce Rally of the Heartland
Rd 3	25 th June	Walky Rallysprint
Rd 4	7 th October	South West Stages Rally

ELIGIBILITY OF SERIES

The Series will consist of a minimum of three (3) events within a calendar year and all rounds will count towards the Series points. To score points in any round of the series a competitor must be a current member of a CAMS affiliated club.

ELIGIBILITY OF EVENTS

Events will be conducted on predominantly unsealed surfaces and comprise a combination of non-pacenoted (blind/road book) Special Stage Rallies, Non-Special Stage Rallies and Rallysprints (which may be Level 1 or Level 2).

The Rallies are to be fully route charted of between 50kms and 100kms recommended total competitive distance. No awards will be presented if the total competitive length of a Rally forming part of the Series has been reduced to less than 30kms by reasons of force majeure. Rallies and/or stages forming part which have previously been conducted as pacenoted events are not suitable to form part of the Series due to the possibility of competitors attempting to use notes from previous or having an unfair advantage due to their familiarity with the roads.

A Closed Competitive Section is defined to mean roads closed with the relevant Ministerial approval or run on private property or forestry roads.

EVENT CONDITIONS

The maximum average speed for Special Stages in a Series Rally is 90kph. If in the opinion of the Series Checker speeds in excess of this limit may be exceeded on a proposed stage, the stage is deemed unsuitable and may not be used. Any stage used and on which a maximum average speed of 99kph is exceeded may not be used in future in the same configuration and without measures introduced to reduce that speed.

Non-daylight stages are not permitted in Special Stage Rallies forming part of the Series but may be used in Non-Special Stage Rallies and in Rallysprints.

Any crew member found driving on a competitive stage between the time of issue of the Event Supplementary Regulations and the crew's start time for the first stage of that leg, other than official pacenoting times in the case of Rallysprints, will be referred to the Stewards with a recommendation for the imposition of a penalty of exclusion.

In Rallies any crew member found in possession of or suspected on reasonable grounds to be using pacenotes or any other navigational aids, including electronic aids, beyond the road book supplied for the event will be referred to the Stewards with a recommendation for the imposition of a penalty of exclusion. The Supplementary Regulations for each such event are encouraged to include powers for Officials to search competition vehicles for pacenotes and to seize any evidence found.

SERIES REGISTRATION

Any Competitor (Driver or Co-Driver) wishing to score points in the Series must register. All Competitors must register for the SACS on the official series registration form at www.sarally.net.au/documents.
